

AristoCAT Webinar Agenda for November 16th, 2014

- A majority of the webinar will cover automatic indexing. Topics to be covered include:
 1. Concepts of automatic indexing.
 2. How to extract the sample automatic indexing files.
 3. Setting up your include files with the automatic indexing markers.
 4. Designing a boilerplate index/exhibit include file.

Questions are highly encouraged during the presentation and after the presentation.

- The remaining time will be spent taking questions from the attendees about other topics, FAQ support questions and the use of on-line help and user's manual.

Attendees are encouraged to have their laptop computer. Their stenographic writer will not be needed for this webinar.
